

worldwide innovator in flexible liquid packaging

**FOR IMMEDIATE RELEASE**

***Flexible packaging on exhibit at the IDFA Ice Cream Technology Conference***

Plymouth, MA, March 17, 2014 - CDF Corporation, a global company that specializes in the manufacture and sale of high quality [pail](#), [drum](#), [intermediate bulk container](#) and [bag in box liners](#) and [flexible packaging](#), will display form-fit IBC tote liners at the International Dairy Foods Association Ice Cream Technology Conference.

The International Dairy Foods Association Ice Cream Technology Conference will be held April 8<sup>th</sup> through the 9<sup>th</sup> in St. Petersburg, Florida. This event is for ice cream and frozen dessert professionals. It is the only meeting that focuses specifically on frozen dessert research, technology, new market trends, food safety, labeling and opportunities. The Ice Cream Technology Conference encourages an open exchange among participants and experts on the technical and practical processing issues in the frozen dessert industry. The conference features networking opportunities and product tasting, including the annual Innovative Ice Cream Flavor Competition.

Representing CDF will be Leigh Vaughn, Regional Manager. Leigh is responsible for growth of flexible packaging products for industrial containers. Leigh has 23 years of sales management experience in the flexible packaging industry. Combining a deep understanding of packaging, industrial applications and direct customer relationships allows Leigh to offer a consultative approach in these areas.

CDF offers a wide range of flexible products that satisfy customer's environmental needs. [Formfit liners](#) are manufactured to form fit the internal shape of your intermediate bulk container. Form-fit IBC (cube-shaped) liners provide high performance in critical applications, such as top-fill applications using a bridge or automated filler; containers with no access doors for placing a liner at the bottom; high speed fills and viscous products that would get caught in the folds of pillow-shaped liners.

**About CDF Corporation**

[CDF](#) Corporation is a privately held international company that specializes in the manufacture and sale of high quality pail, drum, intermediate bulk container and bag in box liners and flexible packaging. CDF manufactures products ranging in sizes from 2 ounces to 330 gallons in its Plymouth, Massachusetts ISO certified facility. Our unique products satisfy a variety of markets and applications including the food and beverage, chemical and cosmetic industries. [www.cdf1.com](http://www.cdf1.com)
