

PailSaver™

Steel Pail Liners

PailSaver steel pail liners are perfect for mixing, pumping and storing nearly any liquid, powder or paste. Examples include inks, chemicals, adhesives, greases, paints, coatings, silicones and food. The seamless, vacuum-formed pail liners have a contoured lip that snaps over a pail's top bead to prevent leakage between the pail liner and the pail wall. After use simply lift out the pail liner, the pail is clean and ready for reuse!

Benefits

- Ensures the absolute purity of your product
- Provides protection against pail corrosion
- Environment-friendly packaging, helps users to reach sustainability goals
- Dramatically reduces the time and expense of cleaning and /or replacing pails

PailSaver™

Steel Pail Liners

Multiple Sizes

The PailSaver steel pail liners are available in 2.5, 3.5, 5 and 6 gallon sizes.

Material Choices

All liners are made in America from FDA-approved films.

Low-density polyethylene is intended for general use and provides superb tensile strength and elongation, as well as high resistance to tears and flex cracking. Low-density polyethylene is designed for applications up to 175°F.

Polypropylene is designed for hot-fill applications up to 270°F.

High-density polyethylene creates rigid, durable inserts that are robust for a wide range of applications and have superior solvent resistance.

Anti-stat additives help to reduce static build-up in static sensitive applications such as paints, volatile materials and fine powders.

Custom Designs

CDF will always consider custom designs.
