

FOR IMMEDIATE RELEASE

CDF's PHS, personal hydration system, debuting at Modern Day Marine

Plymouth, MA, August 21, 2014 - CDF Corporation, a global company that specializes in the manufacture and sale of high quality <u>drum</u>, <u>pail</u>, <u>intermediate bulk container</u> and <u>bag in box liners</u> and <u>flexible packaging</u>, will premier their newest flexible packaging product, PHS, at Modern Day Marine in September.

Modern Day Marine is co-sponsored by Marine Corps Base, Quantico, the exposition's home base. Marine Corps Base Quantico, home to the Combat Development Command and the Marine Corps Systems Command, is responsible for setting requirements, developing equipment and systems and purchasing the equipment and systems that the Marine Corps will rely on in the years to come. These vital and unique functions play a large part in positioning Modern Day Marine as the premier military equipment, systems, services and technology exposition. Modern Day Marine will take place September 23rd to the 25th in Quantico, VA.

Representing CDF will be Iris Thomas, Flexible Packaging Product Manager and Jimmy Pigg, Flexible Packaging Engineer. CDF's newest product, PHS, is a disposable bag and tube combination that fits in any backpack hydration system. The PHS, personal hydration system, offers a cost effective alternative to the CamelBak reservoir. PHS' standard size is 3L; other sizes are available upon request. The PHS is durable, easily disposed of, refillable, impervious to dust, dirt and chemicals, BPA free and made in America. The transparent film and hose allow for easy inspection. PHS will not break down in sunlight due to custom UV film. There is no plastic taste because of the custom film. PHS is capable of enduring varying environmental conditions

"PHS is an alternate solution for military hydration in the field. It provides a cost effective hydration system with a high degree of cleanliness and durability," stated Iris Thomas.

The Marine Military Expos are three trade shows specifically aimed at the Marine Corps market. The mission of the shows is to assist the Marine Corps to identify and procure the best products and services to help their warfighting efforts and to promote the message of the Marine Corps League. Modern Day Marine is designed to be a systems-level show where industry can interface with the requirements and procurement experts in the Marine Corps. Modern Day Marine has been held annually for over 30-years and averages about 500 vendors and 8,000 attendees. Given the proximity to Washington, DC, Modern Day Marine attracts a broader array of attendees from the larger DOD community, all service branches and a distinct international presence.

About CDF Corporation
